SUPERPRINT 4425" QUICK GUIDE

This guide contains basic instructions. For complete information, see the user guide, *Using your Superprint 4425*. These instructions describe direct connect use of the Superprint 4425. See the user guide for information on using a telephone handset in the black cups.

SET-UP

You need to plug in the power and telephone lines, set the clock, and program the relay voice to set up the Superprint 4425.

You must plug in the AC adapter for 24 hours before using the batteries. Be sure to remove the plastic tab from the battery compartment before plugging in the AC adapter.

Caution! Be sure to plug the Superprint 4425 into a standard household telephone line. Using any other type of line may damage your telephone system or the Superprint 4425. You will also void your warranty. For more information, see the user guide, *Using your Superprint 4425*.
